## Education

### Tilak Maharashtra Vidyapeeth

Bachelor in Computer Application , Current 8.5 CGPA

Aug. 2023 – May 2026

Mumbai, Maharashtra

## Experience

### Full Stack Web developer , Intern (Onsite)

Branding Catalyst Pvt Ltd

May 2025 – Present

Mumbai , Maharashtra

#### LIC Agent Registration Portal | MERN Stack

- Developed a full-stack LIC Agent registration system using MongoDB, Express.js, React.js, and Node.js.
- Implemented secure login/authentication, dynamic forms, and an admin panel for approvals and agent management.

#### Restaurant Management System – Combo Feature & Payment Integration | React, Node.js, MySQL

- Integrated an advanced combo-creation module for custom meal packages in a high-traffic restaurant management platform.
- Implemented online payment integration, supporting scalable and secure transactions using MySQL and backend logic in Node.js.

#### Temple Management System – Backend API Development | Express.js, MongoDB

- Developed scalable and modular RESTful APIs for managing temple donations, event scheduling, and user roles.
- Used Express.js and MongoDB to ensure performance and security across API endpoints with clean documentation.

## Projects

### DocNest : A Document Management System | NodeJs , SocketIO

December 2024

- Designed and implemented a document management system using and JavaScript, achieving efficient document organization and retrieval.
- Developed responsive front-end UI using CSS and HTML for an improved user experience

### MumbaikaarFix : Municipal Issue Reporting | EJS, Nodejs , Express , MongoDB

January 2025

- Full-Stack Development: Built and maintained the MumbaikaarFix web application using EJS, JavaScript , and CSS, showcasing expertise in dynamic user interfaces and server-side rendering.
- Collaboration and Scalability: Followed industry-standard practices to ensure scalability and maintainability while collaborating on a multi-language tech stack.
- Problem Solving for Urban Issues: Developed a user-friendly platform to report and track municipal issues, enhancing civic engagement and improving response efficiency.

### NotesApp | : Node.js, Express, EJS, JavaScript, MongoDB

May 2025

- Designed and implemented a minimalistic notes application using Node.js, Express, and EJS templating, focused on easy usability and clean UI.
- Developed full CRUD (Create, Read, Update, Delete) functionality for note management, enabling users to efficiently add, edit, and organize their notes.
- Added and planned extra tools tailored for students, enhancing the standard note-taking features with educational utilities.

## Relevant Coursework

- Data Structures
- Operating System
- DBMS
- System Design
- Computer Fundamental
- Object Oriented Programming
- System Programming
- Basic Math
- Network Fundamentals
- Computer Architecture

## Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript , SQL

Developer Tools: VS Code, git , github , ChatGPT

Technologies/Frameworks: NodeJS , React, Express , Tailwind , Bootstrap

Database: MongoDB , MySQL, MSSQL
